Allowable Subject Matter

1. Claims **1 and 3-5** (*renumbered 1-4, respectively*) are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims **1 and 3-5**, these claims are allowable for the reasons indicated in the previous Office Action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wright (U.S. 7,082,102), Zavalkovsky et al. (U.S. 6,988,133), Putzulu et al. (U.S. 6,611,864), and Cain et al. (U.S. 6,963,573) are additional references considered pertinent to this application.

However, as in *Ebata et al.* (U.S. 6,708,209), these references also fail to teach finding a specific record from a table corresponding to a specific IP address, reading a first corresponding policy enforcement point (PEP) in that record, sending policy information to that PEP, and upon reception of an indication that that the first PEP is not operational, reading a second corresponding PEP of that same record and then sending policy information to that PEP.
